

Denys H.265 IPTV

very convenient menu in IPTV set top box!

The hidden feature of the new Denys H.265 IPTV is in addition to T2MI and Multistream he's dimensions. The device is only 12cm x 2.5cm x 8cm small! This special feature makes the Denys H.265 IPTV suitable for (wall) mounting behind a TV (external infrared receiver included) or in another hidden location.

In addition, the device is ideal for travel or camping use. The small, high performance is functionally as good as its big brothers, but designed for mobile or hidden use.

Of course you can still place it visibly. He is an eye-catcher anyway! With the Denys H.265 IPTV, viewers can take full advantage of the multimedial possibilities, such as IPTV playlists in memory, IPTV autoupdate .m3u, Stalker middleware portals, XTREAM IPTV, YouTube, Internet Radio and many more.
